REMOVAL OF DEPOSITS FROM COPYRIGHT OFFICE

NOTICE is given to authors, copyright proprietors and other lawful claimants that they may claim and remove before January 1, 1956, any article of the following named classes of published works deposited for copyright between January 1, 1952, and January 1, 1953, not reserved or disposed of as provided by sections 213 and 214 of Title 17 of the United States Code and still remaining in the files of the Copyright Office at the time of the request for their removal. The classes of published works covered by this notice are:

Books and Pamphlets.
Contributions to periodicals.
Works of art; models or designs for works of art.
Reproductions of a work of art.
Drawings or plastic works of a scientific or technical character.
Photographs.
Prints and pictorial illustrations excluding prints or labels used for articles of merchandise.

Other published works and all unpublished works are excluded from this notice.

The request for the removal of any copyright deposit should be signed by the person entitled thereto or his duly authorized agent. Such request should identify the work by stating the title, author, copyright proprietor, registration number and year of deposit, and should be addressed to the Copyright Office, Library of Congress, Washington 25, D. C.

L. C. card, 6–35347

This number identifies the Library of Congress printed card for the complete series of the Catalog of Copyright Entries.

For sale by the Register of Copyrights, Library of Congress, Washington 25, D. C. Price for this part: $0.50 per issue, $1.00 per year.

Preface

The CATALOG OF COPYRIGHT ENTRIES is published by authority of sections 210 and 211 of Title 17 of the *United States Code*. Section 210 provides in part: "The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

The *Catalog* is subdivided to represent the classes of material listed in section 5 of said Title 17. The table at the end of this preface shows the organization of the *Catalog*, the symbols used with the registration numbers to distinguish the classes, and the prices of the semiannual issues. The annual subscription for each part is twice the price of a single issue and the complete catalog, including all parts, may be secured on a subscription basis for $20 a year.

The record of each copyright registration listed in the *Catalog* includes a description of the work copyrighted and data relating to the copyright claim (the name of the copyright claimant, as given in the application for registration, the copyright date, the copyright registration number, etc.) Available information in the records of the Copyright Office, including information relating to subsequent changes of ownership, can be obtained upon request and upon payment to the Register of Copyrights of the fee specified in section 215 of said Title 17 ($3 for each hour of time consumed) for the conduct of a search of the records.

In the case of each registration listed, except for renewals, the deposit of a copy (or copies) of the work has been made in accordance with the provisions contained in sections 12, 13, or 215 of said Title 17, or, in the case of published three-dimensional works of art, there has been compliance with section 202.8 (b) (3) of the regulations of the Copyright Office published in the *Code of Federal Regulations*, 1949 edition, which provides for the deposit of identifying reproductions in lieu of the work itself. Foreign works, two copies of which were deposited with a catalog card and application for registration under the waiver-of-fee provision in section 215 of Title 17 of the *United States Code*, are indicated by a zero immediately following the alphabetical symbol in the registration number.

For a more complete description of the contents of this issue of the *Catalog* see p. vii.

Orders, payable in advance, for all parts of the *Catalog of Copyright Entries* should be sent directly to the Register of Copyrights, Library of Congress, Washington 25, D. C. Orders may be placed for individual issues, as subscriptions for one or more parts, or for the complete *Catalog*, and for periods of one or more years. All orders should state clearly the title and the inclusive dates of the part wanted. Checks or money orders should be made payable to the Register of Copyrights.

The Copyright Office welcomes inquiries, suggestions and comments on the content and organization of the *Catalog*. Such communications should be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.

Table of Organization

Each part listed in the table records all current registrations in the class or classes indicated by the alphabetical symbols given. In each case the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for purposes of statistical analysis. A zero immediately following the symbol (e. g., AF0, EF0) distinguishes a foreign work deposited under the waiver-of-fee provision. The symbol R does not represent a class designated by the copyright law, but has been adopted by the Copyright Office to distinguish renewal copyright registrations. These are recorded in a separate section of those parts of the *Catalog* which cover the classes in which the works were originally registered with the exception of music. Some parts also contain registrations made under other symbols if the subject matter or type of material is similar to that generally included in the part.

		Price per semiannual issue
PART 1	BOOKS AND PAMPHLETS, INCLUDING SERIALS AND CONTRIBUTIONS TO PERIODICALS	$2. 50
A	Books

Renewals 57
Publishers Directory 71

INTRODUCTION

PART 6 lists domestic and foreign maps, atlases, and other cartographic works currently registered in Class F, together with similar works registered in other classes. Renewal registrations in Class F are also included.

Four sections make up Part 6. The first lists currently registered works arranged alphabetically under the name of the author, i. e., the person or body principally responsible for the content of the work. Each work is described in a main entry which includes also pertinent information relating to the claim of copyright. Interfiled with these entries are references to them from the names of other persons contributing to the works, from the names of claimants, and from distinctive titles, together with cross-references from variant forms of names. The second section is an index by area and subject to the works described in the first section. An explanation of the entries in this section and their arrangement is to be found at the beginning of the index. The third section lists renewal registrations and is similar to the first section. The fourth section is a directory of the publishers of the works listed in the first section together with the latest address for each as given in the applications or copies.

Each main entry for works currently registered includes, in addition to the name under which it is filed, the following items of information as available and applicable:

1) Title.
2) Names of other persons contributing to the work.
3) Edition statement for editions subsequent to the first, together with information relating to previous publications, revision, etc.
4) Name of the publisher if this is different from the name under which the entry is filed and from the name of the claimant.
5) Physical description, limited to terms descriptive of globes and relief models. For atlases and other book material in one volume, the last number of the principal group of pages is given; for works in more than one volume which are included in a single registration, the number of volumes is given.
6) Series title and the series numbering if shown.
7) Scale (given as a representative fraction if it is stated in the map, or if it can be ascertained from a graphic scale or from other sources in the work). If the work contains only a statement of linear equivalence, this statement is given in the form shown in the work.
8) Descriptive notes.
9) Names of authors given in the application which do not appear elsewhere in the entry.
10) Name of the employer in the case of a work made for hire, if so named in the application, together with the names of the employees.
11) Information contained in the application which relates to the registration of an earlier version of the work.
12) A brief statement of the new matter on which copyright is claimed when this information is given in the application (if not already shown in the entry), preceded by the abbreviation "NM."
13) The copyright symbol ©.
14) Name of the copyright claimant.
15) Date of publication as given in the application.
16) Registration number.

Whenever it is necessary to indicate a variation between the information given in the application and in the copy of the work with respect to the claimant's name or the date of publication, the data from the application is given first, followed by the phrase "in notice" and the data given in the work; e. g., © Richard Roe & Co.; 8Jan54 (in notice: 1953); F18946.

For renewal registrations the main entry includes, in addition to the name under which it is filed, the following items of information as available and applicable:

1) Title, including area.
2) Edition and other descriptive data if given in the application.
3) A brief statement of the new matter on which the original copyright was claimed if available in the renewal application or the records of the Copyright Office, preceded by the abbreviation "NM."
4) The copyright symbol ©.
5) Date of original copyright.
6) Original registration number.
7) Name of the renewal claimant followed by a statement in parentheses, usually in abbreviated form, giving the basis of the renewal claim as supplied by the claimant; e. g., "John Doe (NK)" indicates that renewal of copyright is claimed by John Doe as next of kin of the deceased author.
8) Date of receipt of the renewal application.
9) Renewal registration number.

Works deposited in connection with copyright registration are subject to selection for inclusion in the collections of the Library of Congress, and Library of Congress printed cards are available for many of the published works so selected. Orders for or inquiries concerning such cards should be addressed to the Card Division, Library of Congress, Washington 25, D. C.

ABBREVIATIONS AND SYMBOLS

The following list includes abbreviations and symbols used in this catalog with specific copyright or bibliographic meanings. Definitions are not given for abbreviations in common use.

(A)	—author
a.k.a.	—also known as
©	—copyright symbol
c (followed by date)	—the year of publication as given in the copyright notice
(C)	—child or children of the deceased author
ca.	—circa
cm.	—centimeter, centimeters
col.	—colored
comp.	—compiler
d.b.a.	—doing business as
(E)	—executor(s) of the author
ed.	—edited by, editor, edition
fold.	—folded
(NK)	—next of kin of the author who is not living, there being no will
(NM)	—new matter
p.	—page, pages
(PCB)	—proprietor of a work copyrighted by a corporate body otherwise than as assignee or licensee of the author
(PCW)	—proprietor of the composite work
(PPW)	—proprietor of the posthumous work
pseud.	—pseudonym
pub.	—published, publishing
(PWH)	—proprietor of copyright in a work made for hire
rev.	—revised, revised by, revision
t.a.	—trading as
tr.	—translator
v., vol.	—volume, volumes
(W)	—widow of the author
(Wr)	—widower of the author

COPYRIGHT REGISTRATIONS FOR MAPS

January–June 1954

Class F—Maps published in the United States	1,036
Renewals	469

The above figures represent the number of registrations for maps for January–June 1954, but do not necessarily represent the exact number of entries in this issue of the *Catalog of Copyright Entries*. Registration figures for other classes of material may be found in the respective parts.

MAPS AND ATLASES

An alphabetical list of all maps, atlases, and other cartographic works registered during the period covered by this issue. Each work is entered under author (that is, the name of the person, firm, institution, or other agency primarily responsible for the content of the work). Included in the list are cross-references from distinctive titles; names of copyright claimants, joint authors, and publishers; and variant forms of names.

INDEX OF AREAS AND SUBJECTS

An index in which each work included in the first section is entered under headings descriptive of its subject, geographical area, or type; e.g., atlas, globe. The name under which each entry in the first section is to be found follows that of the geographical area represented in the work. The title of the work follows the name.

PREFATORY NOTE

This index is designed to meet the needs of those who are searching for a map of a specific area or one pertaining to a special subject. Specific headings have been used insofar as possible. Where it is found necessary to combine closely related headings, cross-references are made from one heading to the other, (e.g., Outline Maps. SEE Base and Outline Maps).

The index consists of brief references to the main entries in the first section. The entries give the subject, including area or type of the work, the name of the author, and the title of the work.

The area headings consist of the largest geographical or political units enclosed within the borders of the several maps. When the borders of a map do not coincide in any way with a single geographical or political unit, the name of the most significant unit contained therein is used in the heading. When a map contains three or more states comprising part of one of the geographical divisions of the United States, one of the headings which is given in the "List of Geographical Headings" is used. If the area shown on the map does not coincide with any of the geographical designations, one of the following subdivisions under "United States" is used: northern, northeastern, eastern, southern, southeastern, central, northwestern, western, or southwestern. Names of rivers, lakes, and other geographical features are used when necessary.

LIST OF GEOGRAPHICAL HEADINGS

ATLANTIC SEABOARD

- Connecticut
- Delaware

REMOVAL OF DEPOSITS FROM COPYRIGHT OFFICE

NOTICE is given to authors, copyright proprietors and other lawful claimants that they may claim and remove before January 1, 1957, any article of the following named classes of published works deposited for copyright between January 1, 1953, and January 1, 1954, not reserved or disposed of as provided by sections 213 and 214 of Title 17 of the United States Code and still remaining in the files of the Copyright Office at the time of the request for their removal. The classes of published works covered by this notice are:

Books and Pamphlets.
Contributions to periodical.
Works of art; models or designs for works of art.
Reproductions of a work of art.
Drawings or plastic works of a scientific or technical character.
Photographs.
Prints and pictorial illustrations excluding prints or labels used for articles of merchandise.

Other published works and all unpublished works are excluded from this notice.

The request for the removal of any copyright deposit should be signed by the person entitled thereto or his duly authorized agent. Such request should identify the work by stating the title, author, copyright proprietor, registration number and year of deposit, and should be addressed to the Copyright Office, Library of Congress, Washington 25, D. C.

L. C. card, 6–35347

This number identifies the Library of Congress printed card for the complete series of the Catalog of Copyright Entries.

For sale by the Register of Copyrights, Library of Congress, Washington 25, D. C. Price for this part: $0.50 per issue, $1.00 per year.

Preface

The CATALOG OF COPYRIGHT ENTRIES is published by authority of sections 210 and 211 of Title 17 of the *United States Code*. Section 210 provides in part: "The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

The *Catalog* is subdivided to represent the classes of material listed in section 5 of said Title 17. The table at the end of this preface shows the organization of the *Catalog*, the symbols used with the registration numbers to distinguish the classes, and the prices of the semiannual issues. The annual subscription for each part is twice the price of a single issue and the complete catalog, including all parts, may be secured on a subscription basis for $20 a year.

The record of each copyright registration listed in the *Catalog* includes a description of the work copyrighted and data relating to the copyright claim (the name of the copyright claimant, as given in the application for registration, the copyright date, the copyright registration number, etc.) Available information in the records of the Copyright Office, including information relating to subsequent changes of ownership, can be obtained upon request and upon payment to the Register of Copyrights of the fee specified in section 215 of said Title 17 ($3 for each hour of time consumed) for the conduct of a search of the records.

In the case of each registration listed, except for renewals, the deposit of a copy (or copies) of the work has been made in accordance with the provisions contained in sections 12, 13, or 215 of said Title 17, or, in the case of published three-dimensional works of art, there has been compliance with section 202.8 (b) (3) of the regulations of the Copyright Office published in the *Code of Federal Regulations*, 1949 edition, which provides for the deposit of identifying reproductions in lieu of the work itself. Foreign works, two copies of which were deposited with a catalog card and application for registration under the waiver-of-fee provision in section 215 of Title 17 of the *United States Code*, are indicated by a zero immediately following the alphabetical symbol in the registration number.

For a more complete description of the contents of this issue of the *Catalog* see p. vii.

Orders, payable in advance, for all parts of the *Catalog of Copyright Entries* should be sent directly to the Register of Copyrights, Library of Congress, Washington 25, D. C. Orders may be placed for individual issues, as subscriptions for one or more parts, or for the complete *Catalog*, and for periods of one or more years. All orders should state clearly the title and the inclusive dates of the part wanted. Checks or money orders should be made payable to the Register of Copyrights.

The Copyright Office welcomes inquiries, suggestions and comments on the content and organization of the *Catalog*. Such communications should be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.

Table of Organization

Each part listed in the table records all current registrations in the class or classes indicated by the alphabetical symbols given. In each case the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for purposes of statistical analysis. A zero immediately following the symbol (e. g., AF0, EF0) distinguishes a foreign work deposited under the waiver-of-fee provision. The symbol R does not represent a class designated by the copyright law, but has been adopted by the Copyright Office to distinguish renewal copyright registrations. These are recorded in a separate section of those parts of the *Catalog* which cover the classes in which the works were originally registered with the exception of music. Some parts also contain registrations made under other symbols if the subject matter or type of material is similar to that generally included in the part.

INTRODUCTION

PART 6 lists domestic and foreign maps, atlases, and other cartographic works currently registered in Class F, together with similar works registered in other classes. Renewal registrations in Class F are also included.

Four sections make up Part 6. The first lists currently registered works arranged alphabetically under the name of the author, i. e., the person or body principally responsible for the content of the work. Each work is described in a main entry which includes also pertinent information relating to the claim of copyright. Interfiled with these entries are references to them from the names of other persons contributing to the works, from the names of claimants, and from distinctive titles, together with cross-references from variant forms of names. The second section is an index by area and subject to the works described in the first section. An explanation of the entries in this section and their arrangement is to be found at the beginning of the index. The third section lists renewal registrations and is similar to the first section. The fourth section is a directory of the publishers of the works listed in the first section together with the latest address for each as given in the applications or copies.

Each main entry for works currently registered includes, in addition to the name under which it is filed, the following items of information as available and applicable:

1) Title.
2) Names of other persons contributing to the work.
3) Edition statement for editions subsequent to the first, together with information relating to previous publications, revision, etc.
4) Name of the publisher if this is different from the name under which the entry is filed and from the name of the claimant.
5) Physical description, limited to terms descriptive of globes and relief models. For atlases and other book material in one volume, the last number of the principal group of pages is given; for works in more than one volume which are included in a single registration, the number of volumes is given.
6) Series title and the series numbering if shown.
7) Scale (given as a representative fraction if it is stated in the map, or if it can be ascertained from a graphic scale or from other sources in the work). If the work contains only a statement of linear equivalence, this statement is given in the form shown in the work.
8) Descriptive notes.
9) Names of authors given in the application which do not appear elsewhere in the entry.
10) Name of the employer in the case of a work made for hire, if so named in the application, together with the names of the employees.
11) Information contained in the application which relates to the registration of an earlier version of the work.
12) A brief statement of the new matter on which copyright is claimed when this information is given in the application (if not already shown in the entry), preceded by the abbreviation "NM."
13) The copyright symbol ©.
14) Name of the copyright claimant.
15) Date of publication as given in the application.
16) Registration number.

Whenever it is necessary to indicate a variation between the information given in the application and in the copy of the work with respect to the claimant's name or the date of publication, the data from the application is given first, followed by the phrase "in notice" and the data given in the work; e. g., © Richard Roe & Co.; 8Jan54 (in notice: 1953); F18946.

For renewal registrations the main entry includes, in addition to the name under which it is filed, the following items of information as available and applicable:

1) Title, including area.
2) Edition and other descriptive data if given in the application.
3) A brief statement of the new matter on which the original copyright was claimed if available in the renewal application or the records of the Copyright Office, preceded by the abbreviation "NM."
4) The copyright symbol ©.
5) Date of original copyright.
6) Original registration number.
7) Name of the renewal claimant followed by a statement in parentheses, usually in abbreviated form, giving the basis of the renewal claim as supplied by the claimant; e. g., "John Doe (NK)" indicates that renewal of copyright is claimed by John Doe as next of kin of the deceased author.
8) Date of receipt of the renewal application.
9) Renewal registration number.

Works deposited in connection with copyright registration are subject to selection for inclusion in the collections of the Library of Congress, and Library of Congress printed cards are available for many of the published works so selected. Orders for or inquiries concerning such cards should be addressed to the Card Division, Library of Congress, Washington 25, D. C.

ABBREVIATIONS AND SYMBOLS

The following list includes abbreviations and symbols used in this catalog with specific copyright or bibliographic meanings. Definitions are not given for abbreviations in common use.

(A)	—author
a.k.a.	—also known as
©	—copyright symbol
c (followed by date)	—the year of publication as given in the copyright notice
(C)	—child or children of the deceased author
ca.	—circa
cm.	—centimeter, centimeters
col.	—colored
comp.	—compiler
d.b.a.	—doing business as
(E)	—executor(s) of the author
ed.	—edited by, editor, edition
fold.	—folded
(NK)	—next of kin of the author who is not living, there being no will
(NM)	—new matter
p.	—page, pages
(PCB)	—proprietor of a work copyrighted by a corporate body otherwise than as assignee or licensee of the author
(PCW)	—proprietor of the composite work
(PPW)	—proprietor of the posthumous work
pseud.	—pseudonym
pub.	—published, publishing
(PWH)	—proprietor of copyright in a work made for hire
rev.	—revised, revised by, revision
t.a.	—trading as
tr.	—translator
v., vol.	—volume, volumes
(W)	—widow of the author
(Wr)	—widower of the author

COPYRIGHT REGISTRATIONS FOR MAPS

July–December 1954

Class F—Maps published in the United States	898
Maps published outside the United States	3
Renewals	357

The above figures represent the number of registrations for maps for July–December 1954, but do not necessarily represent the exact number of entries in this issue of the *Catalog of Copyright Entries*. Registration figures for other classes of material may be found in the respective parts.

MAPS AND ATLASES

An alphabetical list of all maps, atlases, and other cartographic works registered during the period covered by this issue. Each work is entered under author (that is, the name of the person, firm, institution, or other agency primarily responsible for the content of the work). Included in the list are cross-references from distinctive titles; names of copyright claimants, joint authors, and publishers; and variant forms of names.

INDEX OF AREAS AND SUBJECTS

An index in which each work included in the first section is entered under headings descriptive of its subject, geographical area, or type; e.g., atlas, globe. The name under which each entry in the first section is to be found follows that of the geographical area represented in the work. The title of the work follows the name.

PREFATORY NOTE

This index is designed to meet the needs of those who are searching for a map of a specific area or one pertaining to a special subject. Specific headings have been used insofar as possible. Where it is found necessary to combine closely related headings, cross-references are made from one heading to the other, (e.g., Outline Maps. SEE Base and Outline Maps).

The index consists of brief references to the main entries in the first section. The entries give the subject, including area or type of the work, the name of the author, and the title of the work.

The area headings consist of the largest geographical or political units enclosed within the borders of the several maps. When the borders of a map do not coincide in any way with a single geographical or political unit, the name of the most significant unit contained therein is used in the heading. When a map contains three or more states comprising part of one of the geographical divisions of the United States, one of the headings which is given in the "List of Geographical Headings" is used. If the area shown on the map does not coincide with any of the geographical designations, one of the following subdivisions under "United States" is used: northern, northeastern, eastern, southern, southeastern, central, northwestern, western, or southwestern. Names of rivers, lakes, and other geographical features are used when necessary.
